

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	2
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare
1 hour to collaborate
4 people (Team 2)

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A

Team gathering

Team 2 members (Akshaya E, Akshaya S, Akshaya L, Allin Kiruba R) join the session and share the project details beforehand.

B

Set the goal

Focus on automating standard laptop orders with Flow Designer.

C

Learn how to use the facilitation tools

Use a shared board with sticky notes to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM

How might we automate standard laptop ordering so employees get laptops faster with less manual effort?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

Akshaya E	Akshaya S	Akshaya L	Allin Kiruba R
Catalog item for standard laptop models	Auto-approve standard laptops within budget	Auto-create procurement task	Email notification at every stage
Auto-fill user details in the form	Manager approval via email	Assign task to procurement group	Status tracker on the portal
Show laptop specs and delivery time	Reminder for pending approvals	Send order to vendor through API	Update asset record when delivered

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Each cluster has a sentence-like label.

20 minutes

Make requesting a laptop simple			Speed up approvals automatically			Automate procurement work			Keep everyone informed		
Catalog item for standard models	Auto-fill user details	Show specs and delivery time	Auto-approve within budget	Manager approval via email	Reminder for pending approvals	Auto-create procurement task	Assign task to group	Order to vendor via API	Email alerts	Status tracker on portal	Update asset record

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
